PROFESSIONAL SUMMARY

Informatics undergraduate student at Universitas Syiah Kuala with hands-on experience in UI/UX design, fullstack development, and digital content creation. Proven ability to manage social media, produce visual and promotional content, and develop web-based applications, including a public complaint system for e-government services. Experienced laboratory assistant across six practical courses, with internship experience in e-government web development and spatial data analysis using QGIS. Active student organization member with strong communication, leadership, and creative skills.

EDUCATION

Bachelor of Informatics August 2023 – Present
Universitas Syiah Kuala, Banda Aceh
- Focused on software development, UI/UX design, and systems analysis.
- Active in Himpunan Mahasiswa Informatika (HMIF) – Komunikasi, Informasi dan Kreativitas (KOMINKRAF) Department
- Involved in collaborative projects combining technology and social innovation.

EXPERIENCE

Laboratory Assistant – Advanced Programming (D3 Manajemen Informatika) August 2026 – Present
Universitas Syiah Kuala, Department of Informatics
- Assisted D3 Manajemen Informatika students in advanced programming practicum using Python.
- Supported students with hands-on programming exercises and assignment completion.

Laboratory Assistant – Entrepreneurship (Kewirausahaan) August 2026 – Present
Universitas Syiah Kuala
- Assisted students in practical entrepreneurship sessions and course assignments.
- Guided students in completing entrepreneurship-based projects.

Intern – E-Government Web Developer July 2026 – August 2026
Dinas Komunikasi, Informatika dan Statistik (Diskominfotik) Kota Banda Aceh
- Developed SiCADU, a web-based public complaint (pengaduan) system supporting e-government services.
- Built the application from interface to server-side functionality as a fullstack web project.
- Contributed to digital public service improvement for the Banda Aceh city government.

Laboratory Assistant – GIS (Geographic Information System) January 2026 – Present
Universitas Syiah Kuala, Department of Informatics
- Assisted in lab sessions covering spatial data analysis and geographic mapping tools.
- Supported students in completing GIS-based projects and practicum assignments.

Laboratory Assistant – Data Visualization January 2026 – Present
Universitas Syiah Kuala, Department of Informatics
- Guided students in building data visualizations using relevant tools and frameworks.
- Helped students interpret and communicate data outputs effectively.

Laboratory Assistant – Object-Oriented Programming August 2025 – December 2025
Universitas Syiah Kuala, Department of Informatics
- Assisted students in understanding OOP concepts and practical programming exercises.
- Supervised lab sessions and evaluated student assignments.

Laboratory Assistant – Numerical Computing August 2025 – December 2025
Universitas Syiah Kuala, Department of Informatics
- Guided students through numerical methods and computational problem-solving.
- Provided technical support and mentoring during hands-on lab sessions.

Intern – Data & GIS Analyst July 2025 – August 2025

Kementerian Pekerjaan Umum – Direktorat Jenderal Cipta Karya, Banda Aceh

- Conducted data analysis related to water distribution and PDAM management across Aceh Besar region.
- Created digital maps (digitization) using QGIS to visualize PDAM network and distribution in Aceh.
- Processed and integrated spatial data to produce informative and accessible visualizations.

ORGANIZATIONAL EXPERIENCE

Secretary – Vice Head – Komunikasi, Informasi dan Kreativitas (KOMINKRAF) Department February 2026 – Present

HMIF – Himpunan Mahasiswa Informatika, Universitas Syiah Kuala

- Managed administrative and documentation tasks for the Communication & Creative Department.
- Coordinated scheduling, correspondence, and departmental records to support team operations.
- Assisted in organizing departmental meetings and ensuring follow-up on action items.

Vice Head – Komunikasi, Informasi dan Kreativitas (KOMINKRAF) Department February 2025 – February 2026

HMIF – Himpunan Mahasiswa Informatika, Universitas Syiah Kuala

- Managed official social media accounts and digital content to increase student engagement.
- Coordinated production of publication materials including posters, videos, and event reports.
- Served as liaison between departments to support internal and external organizational activities.

Committee – Publication & Documentation Division (Branding) October 2024

Informatica Festival 2024

- Produced promotional content and live reports across social media during the event.
- Created TikTok content that contributed to increased event exposure and audience reach.
- Coordinated with the publication team to maintain consistent event branding and identity.
